

Shademaker Polaris

CANTILEVER
PARASOLS

The Shademaker Polaris is a technically refined side post parasol featuring 360° rotation and a variable tilt mechanism designed to provide a shade solution for large areas. Heavy duty marine grade materials guarantee longevity of your parasol while the increased canopy sizes of the Polaris provide maximum shade and space without the inconvenience of a centre pole.

The Polaris parasol is easy to installation and maintain, with a canvas that folds back to the main post when not in use, and can be easily removed for seasonal storage. Shademaker is the leading specialist manufacturer of high-quality side-post cantilever parasols.

- Canopy folds back to the side pole
- Easy tilt system
- 360° rotation
- Integrated crank system

Size	Shape	Pole Profile mm	No of Ribs	Total Height mm	Head Clearance mm	Closed Clearance mm	Minimum Base Weight kg
3.5m	Square	119 x 77 x 4	8	2806	2230	388	300
4.0m	Square	119 x 77 x 4	8	2934	2230	267	300
3.0m x 4.0m	Rectangle	119 x 77 x 4	8	2793	2240	401	300

Ideally, Polaris parasols should be installed onto fixed inground bases.

Canvas

The O'bravia™ Fabric Collection (310gr/m²) is the exclusive solution for elegance, comfort, strength and sustainability. O'bravia offers an exciting selection of fashionable colours that will enhance any outdoor environment. O'bravia is an exclusive new high performance fabric collection designed for environmentally friendly outdoor living.

This exciting proprietary fabric blend of 100% solution-dyed polyester offers the outdoor industry an ideal earth friendly solution for umbrellas. O'bravia is the 100% recyclable green choice. O'bravia fabric provides excellent fade resistance and a UV protection of 50+. The fabric is also stain resistant and easy to clean.

Colour options

* Note: colours shown here offer only an approximation of their actual real-life counterparts, as screen and print settings on different computers cannot accurately reproduce some colour values.

Frame

The frame is made from high-grade anodised aluminium with durable high performance hubs and fittings. The Polaris is easy to open and close with the integrated self-locking crank system and removable handle. The parasol can be rotated 360° featuring an integrated turning mechanism in the pole whilst the shade canopy can be tilted in multiple different positions, providing flexible shade options throughout the day.

Optional Extras

- In-ground base.
- Free standing base with slabs and optional wheels.
- Deck mount.
- LED lights.
- Heating.
- Cover bags.
- Corporate branding on request.
