

# Tradewinds Classic

WOODEN  
PARASOLS

A brand name in parasols synonymous with superior styling, consistency and reliability, Tradewinds Classic Parasols are made from durable eucalyptus hardwood that has been harvested from renewable resources. Used by many of the world's leading brands, Tradewinds Parasols are an important outdoor media vehicle for communications campaigns. Tradewinds parasols will enhance any outside area, blending style with strength. High quality materials and workmanship ensure that Tradewinds parasols are the number one choice of corporate, private and promotional buyers.

- Designed for commercial use

2.0m x 3.0m	Rectangle	48	6	2760	2000	840	40

\* Clearance numbers exclude any base height

## Canvas

Canopies are woven from a highly durable Teflon coated solution dyed polyester. All pockets are reinforced with heavy duty PVC, which helps make the canopy long lasting and durable. A large air vent is designed to provide additional stability in windy conditions. The canopies feature an anti-fade warranty of up to three years. A large range of colours are available for Tradewinds Parasols to match your requirements and branding possibilities. Canopies are easily removable and washable to maintain the look of the parasols. Replacement canopies are readily available.

## Colour Options

\* Note: colours shown here offer only an approximation of their actual real-life counterparts, as screen and print settings on different computers cannot accurately reproduce some colour values.

## Frames

Tradewinds wooden parasol frames are manufactured from Eucalyptus wood, which is particularly suitable for parasols due to its strength and straightness of grain. Stylish handcrafted poles and hubs are laminated to give additional strength and durability. Tradewinds parasol frames are assembled with stainless steel brackets and bolts to allow for the easy installation of new component parts, should there be any breakages or damage at any stage throughout the parasol's lifespan.

## Optional extras

- Heavy duty cover bags for protection when parasols are closed.
- Bases in concrete, granite and steel.
- Stainless steel in-ground bases.
- Corporate branding on request.
