

The Scolaro Astro cantilever parasol is the perfect marriage between the future and the classic. Bringing a combination of technology, ergonomics, design and innovation, this parasol can be opened and closed with one single, effortless movement.

Harmonious for all environments, the MOTION retractable solution permits the parasol to be opened or closed near to the pole without moving table and chairs first. The combination of the MOTION and ACTION System allows users to open or close the parasol in one operation. The integrated gas spring, which compensates the weight of the umbrella, ensures the handling is very light and easy.

- EFFORTLESS HANDLING WITH GAS SPRING OPENING
- FRAME - WHITE, GREY OR CARBON
- RETRACTABLE SOLUTION FOR CANOPY
- EASY TO SET UP & TAKE DOWN

SIZES

Size (m)	Shape	Number of Struts	Total Height (mm)	Height Closed (mm)	Parasol Weight (kg)
3.0 x 3.0	Square	8	2750	2950	55
3.5 x 3.5	Square	8	2750	3150	60
3.0 x 4.0	Rectangle	8	2750	3150	60

FRAMES

The MOTION is a retractable solution and permits users to open or close the parasol near to the pole without removing table and chairs. The combination of MOTION and ACTION system allows the parasol to open or close in one fluid operation.

The aluminium frame is available in an anodized version SpaceGrey, powder-coated StarWhite or carbon coated finish. Finished with components and stainless steel hardware.
